

ONLINE OCCUPATIONAL HEALTH & SAFETY PROGRAMS

Advance your career and lead your organization to optimal health and safety

Certificate

CRSP[®] Exam
Prep Course

Diploma

COMPREHENSIVE CERTIFICATE PROGRAMS FOR OHS PROFESSIONALS OF ALL LEVELS.

Across all sectors and industries in the Americas and beyond, effective workplace health and safety management has become increasingly important. Leading organizations understand and value the role of health and safety practitioners. As workplace hazards—and regulations—become more complex, organizations need leaders with a broad view of the overall *safety culture, systems, and measurement*.

Our introductory online Certificate program provides the foundation to develop, implement, and evaluate health and safety programs. Our online Diploma program teaches you to think strategically from a 'system' perspective and to lead change within your organization. Our certified, experienced OHS professionals deliver the most current information on regulations, best practices, and leadership and management tools.

You can begin at the *certificate* level, prepare for your *CRSP*[®] *exam* and advance to the *diploma* program where you'll combine management skills with specialized technical OHS courses.

We are the only institution in Canada to offer this comprehensive programming entirely online.

Start with us. Stay with us. Lead the way with us.

**Experience you can trust.
Skills you can use.**

The University of New Brunswick is internationally recognized for its programs and the contributions of its graduates. UNB is a leader in online OHS education.

CERTIFICATE IN OCCUPATIONAL HEALTH AND SAFETY

Industry, government, and organizations need qualified professionals who know the latest dynamics of health and

safety needs. Designed by senior safety professionals, this program incorporates current trends and regulations. You'll be equipped to develop, implement, and evaluate an effective health and safety system. The program also prepares you to write the Canadian Registered Safety Professional (CRSP®) exam.

**11 courses • 10 weeks per course
Up to 2 years to finish program**

WHO SHOULD ATTEND?

- Practicing occupational health and safety professionals
- Those who want to break into this rapidly expanding field

You may choose to register for an individual course or the entire program.

CANADIAN REGISTERED SAFETY PROFESSIONAL (CRSP®) EXAM PREPARATION COURSE

The CRSP® designation is the national standard for practicing occupational health and safety professionals. The Board of Canadian Registered Safety Professionals (BCRSP) awards the CRSP® to a select few academically qualified, technically prepared candidates. To earn your CRSP® designation, you must pass the BCRSP exam. The exam contains 200 multiple-choice questions, which must be answered within 3.5 hours. The pass rate is typically 40-60%. If you're planning to write the exam, this course is critical.

**6 months of content
availability**

WHO SHOULD ATTEND?

This course is ideal for occupational health and safety practitioners with three or more years of experience, who may be eligible for the CRSP® designation.

BENEFITS OF THE COURSE

- Learn and get support from certified industry experts
- Delivered completely online—no travel costs or time away from work
- Prepare with the end of course practice exam which simulates the conditions, timing, and question types that are experienced when writing the actual CRSP® Exam

COURSE CONTENT

- Overview of the registration process to write the CRSP® exam
- A detailed review of the 9 domains, including technical material, as described in BCRSP Examination Blueprint, and a discussion on the weighting and competencies of each
- Online practice exams (end-of-module exams) for each domain
- Study tips and exam writing techniques

The first course of its kind in Canada
–delivered completely online.

Start any time to be ready for the upcoming
BCRSP exams in February, May, and October.

Upon successful completion of the UNB
CRSP® Prep Course, you may be eligible to
apply to write the exam to become certified.
Visit www.bcrsp.ca for more information on the credential.

WHAT GRADUATES SAY ABOUT US

"Since enrolling in the UNB OHS program I can see an improvement in incident follow up—we now have a format to analyze and investigate them—an important part of my position. I think your course is great and have enjoyed it immensely."

- Erin Williamson
Marvan Transport, Red Deer, Alberta

"The OHS course is very relevant, and I believe all line managers from CEO to production/maintenance supervisor and anyone involved in HS&E would benefit and find the content enlightening."

- John Johnson
Process Safety Engineer, Irving Oil Refining G P

"I took my OHS certificate course and the CRSP® Prep from UNB, both courses helped me when I sat for my CRSPEX. I will definitely recommend either course for anyone who has chosen safety as a career. It's definitely worth it."

- Adebola Anthony Adesida, CRSP®

"I found the whole team at UNB online to be very cordial and extremely helpful. I would highly recommend the UNB online programs to anyone working in OHS and looking to further their education in OHS."

- Gordon Meister
