Team Member Spotlight: Shelley Doucet

[Dr. Shelley Doucet](#) is the Jarislowsky Chair in Interprofessional Patient-Centred Care, Professor in Nursing, and Director of the Centre for Research in

Integrated Care at the University of New Brunswick. Dr. Doucet's program of research is focused on the development, implementation, evaluation, and dissemination of interprofessional practice initiatives across settings and sectors. Her research team develops programs that address the barriers and gaps in services identified through research, with the goal to promote collaborative patient-centred care that is accessible and meets patients' needs across the lifespan. For example, she co-founded and co-directed NaviCare/SoinsNavi, a navigation centre for children and youth with complex care needs and their families in New Brunswick. Her team is currently spreading this innovation to provide navigational support for other populations, including a pilot navigation program for people with dementia, their caregivers, and the care team.

Event Spotlight: Canadian Healthcare Navigation Conference (CHNC)
2023

Have you heard about the [Canadian Healthcare Navigation Conference \(CHNC\)](#)? This conference is co-hosted in partnership between the Centre for Research in Integrated Care (CRIC) and the Family Navigation Project at Sunnybrook Health Sciences Centre in Toronto.

This year is the **third annual** conference, and will be held virtually over two half-days on **April 20-21, 2023**. The theme this year is **Achieving Integrated Care through Healthcare Navigation**. This event aims to provide a forum to share and discuss how navigation can support the integration of care through the lens of research, practice, education, and administration.

The keynote speakers have been announced for 2023! **Tracey Addison** is a Parent Advocate with Lived Experience with the Family Navigation Project (FNP) at Sunnybrook and **Dr. Onil Bhattacharyya** MD, PhD is the Frigon Blau Chair in Family Medicine Research and Director of the Institute for Health

Systems Solutions and Virtual Care at Women's College Hospital.

There are a variety of [ticket options](#) to choose from if you are interested in attending! **Early-bird registration** is available until March 3, 2023.

To stay up to date on CHNC 2023, we invite you to follow us on social media on [Facebook](#), [LinkedIn](#) and [Twitter](#). Hope you can join us!

Good News

2022 NBHRF Mentors of the Year

We are very happy to announce that Dr. Shelley Doucet, CRIC Director, and Dr. Alison Luke, CRIC Research Associate, have been honoured with the [2022 NBHRF Mentors of the Year Award](#). The New Brunswick Health Research Foundation (NBHRF) promotes, coordinates and supports health research and innovation in the province. Once a month, from January 2022 to October 2022, mentors were highlighted for their efforts in health research. From this pool of nominees, the mentors of the year were voted on by their peers during the annual health research week gala.

Many researchers and staff nominated Dr. Luke and Dr. Doucet for their dedication to mentoring health researchers, trainees, and staff. They have both made outstanding contributions to building capacity amongst the health

research community across New Brunswick, Canada, and even internationally. During their careers, Dr. Doucet and Dr. Luke have brought in over \$70 million of funding and have been supervisors to over 125 talented researchers and students. We look forward to their continued work within the healthcare system in New Brunswick and beyond. Congratulations Dr. Luke and Dr. Doucet!

Best Oral Presentation, Health Services Session - NBHRF's 2022 Health Research Week

Dr. Luke MacNeill, CRIC postdoctoral fellow, won best health services oral presentation at the 2022 New Brunswick Health Research Foundation's Health Research Week for his talk, "Integrating conversational agents into the health care system: Recommendations from health professionals." Congratulations Dr. MacNeill!

Upcoming Events

QUEST - March 16th, 2023 - The next QUEST session will be held on March 16, 2023 at 3 pm. Join Emma Conway of the University of Waterloo as she presents *Supporting the Engagement of People Living with Dementia in Qualitative Research Using Storytelling Techniques*. [Register in advance](#) for this session. After registering, you will receive a confirmation email containing information about joining the meeting.

CHNC 2023 - April 20-21, 2023 - As mentioned above, CRIC will be co-hosting the Canadian Healthcare Navigation Conference (CHNC) on April 20-21, 2023. To learn more about CHNC 2023, please [visit the website](#).

CAHSPR Conference - Montreal, May 29-31, 2023 - The Canadian Association for Health Services and Policy Research (CAHSPR) is a community of researchers and decision makers working together toward evidence-based health care and health policy. Their event will be hosted at the Centre Mont Royal. More details about the program, conference rates and options for virtual participation will be announced in the coming weeks. For updates about the conference, visit [CAHSPR](#).
