Sponsorship Opportunities

The Apex Startup Challenge would not be possible without the **generous support of our sponsors**. As a sponsor of the Apex Startup Challenge, you will be impacting student lives by contributing to an exceptional hands-on learning experience.

Apex was created to give students and new entrepreneurs the opportunity to learn and practice business in a real-world setting and network with business professionals. Apex is a key part of the Faculty of Management's **experiential education programming**, which endeavours to bridge academic theory and practical application to prepare students for their careers beyond university.

We are seeking funding for this competition to **enhance the overall experience** for the participants by providing prizes, supplies and promotional materials.

We also invite you and your organization to take part in the Apex experience as a judge and a participant in all our networking events. All sponsors will receive **promotional opportunities** to showcase your organization, with **additional benefits** available based on donation amounts.

Get in front of students and real ventures – promote your name, potential to work together down the road, and make connections!
