Listening to Nurses about Careers in Long-Term Care

If possible, ask nursing staff in your home the following 4 questions. Record key points together here and bring your responses to the Summit.

Questions:

1) What attracted you to long-term care?

2) How long have you worked in long term care?

3) What inspires you to come to work every day?

4) What do you wish you had known about nursing in long-term care when you were hired?
